EDUCATION

University of California San Diego

La Jolla, CA

Bachelor of Science in Computer Science, Minor in Economics

Sept. 2021 – June. 2026

Relevant Coursework: Advanced Data Structures, Design/Analysis of Algorithms, Principles of Computer Operating Systems, Database System Principles, Intro to Computer Security, Advanced Software Engineering and Intro Distributed Systems

CERTIFICATE

AWS Certified Cloud Practitioner

Work in Progress

Udemy

- AWS services, cloud architecture, and security best practices. Gaining hands-on experience with EC2, S3, and IAM.
- Aiming to take the certification exam in March 2025.

EXPERIENCE

Computer Science & Math Instructor

October 2022 – Present

Juni Learning

Remote

- Guided students from diverse backgrounds, fostering their understanding and enthusiasm for computer science.
- Selected for advanced courses, including USACO, due to consistent teaching excellence and a proven ability to deliver high-quality educational content.
- Taught a variety of subjects, including AP Computer Science, Java, Python, JavaScript, Data Science, and C.
- Helped 3 students achieve top scores on the AP Computer Science exam

Freelance Software Developer

September 2024 – Present

Valhalla FC

Remote

- Developed and maintained software applications to support an online EA Sports FC mobile community with over 650 members.
- Designed and developed multiple bots integrating with the Discord API to enhance community engagement and streamline moderation.
- Enhanced user engagement through innovative features and efficient system designs.

PROJECTS

Valhalla World Cup Spinner | *React.js, JavaScript, Discord API*

December 2024

- Designed an interactive web application for the Valhalla World Cup event, accommodating 96 participants and integrating player data via the Discord API.
- Implemented a dynamic spinner feature that assigned teams and roles seamlessly, enhancing user engagement.
- Increased event participation and streamlined organization through an intuitive and visually appealing interface.

Valhalla Bot | *Python, Discord API*

January 2025 – Present

- Developed a versatile bot for the Valhalla FC community, automating moderation tasks and enhancing engagement for over 650 members.
- Created an invite tracker to monitor how users join the server, with built-in raid alert detections and automated deletions to maintain server security.
- Integrated features like leader boards, ranked matches, and event management tools to streamline server activities.

TECHNICAL SKILLS

Coding Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS, x86

Frameworks: React, JUnit, Pandas, MathLib

Developer Tools: Git, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, Android Studio, GDB
